

The *Lakeland*™ Wall

Lakeland™ has the sophisticated look of an old brick wall so popular with homeowners today. This tumbled three piece system offers designers the freedom and ability to combine functionality with style. Lakeland blocks can be used to build random pattern garden walls, seat walls, columns, stairs, planters, and more.

The *Lakeland*™ Wall

The advantages of a Rockwood Retaining Wall

Fast...

Lakeland™ is an easy to use, multi-piece, mortarless, and pinless wall system. Simply stack and secure Lakeland blocks with Super-Stik® high quality masonry adhesive to build lasting, functional, and attractive outdoor environments.

Simple...

Each unit weighs between 10 and 30 lbs., making Lakeland as easy to handle, as it is to install. Its size makes it perfect for any weekend project such as garden walls, seat walls, pillars, columns, planters, egress windows, and small retaining walls.

Strong...

Made of high quality concrete, Lakeland will stand up to seasonal extremes. Plus its natural weathered appearance will only improve with time.

Versatile...

Offering greater design flexibility than pin and lip systems, Lakeland is as popular for its buildability as it is for its great looks. The three units can be arranged to create an endless variety of unique applications.

Components

Unit availability, color, and specifications vary by manufacturer. Please contact your nearest Rockwood manufacturer or dealer for more information.
